## RESEARCH PROJECTS - Some examples

### WIPOSIM – The economic policy online simulator

The goal of the project is the extension of an interactive paradigm-oriented simulator of basic macroeconomics and of the accompanying online text developed in a previous project (MGWK).  
Funding: Hans Böckler Foundation.

### Varieties of COVID-19 Reactions and Changing Modes of Globalization in the Global South

The project aims to fill gaps in research on the impact of COVID-19 on social upgrading trajectories in global value chains (GVCs) through theoretical and empirical contributions.  
Funding: Deutsche Forschungsgemeinschaft - German Research Foundation (DFG)

### Crisis and Socio-ecological Transformation

The work in this graduate school assumes that the causes for the ecological crisis are found in the structural indifference of capitalist societies towards their own social and ecological conditions of reproduction.  
Funding: Rosa Luxemburg Foundation
