Master students are supposed to present the motivation, research question(s), research methods and procedure, and also the **preliminary results** of their Master thesis. For the students we will have 15 minutes for the presentation and 15 minutes for the discussion each.

Students should provide a handout (one page) for the seminar participants, summarising their motivation, research question(s) and main (preliminary) results. The handout should be uploaded to Moodle before the presentation.

A student discussant will be the first to comment on the presentation (3 minutes). The discussant should receive the powerpoint presentation at least two days in advance of the presentation (as a pdf). The pdf also has to be sent to Prof. Hein.

Master students are required to attend at least six meetings (including their own presentation). Online participation is possible.

- Deadline for registration of Master thesis: 8 April 2022
- Deadline for submission of the thesis: 22 July 2022
- Deadline for EPOG students: 31 May 2022
